Election Security Available Funding

2024 Available Funds

The Consolidated Appropriations Act of 2024 provides \$55 million to the EAC, under Title I Section 101 of HAVA to make grant funds available to states using the voting age population formula in Section 101 of HAVA.

Minimum Payments

The minimum requirement for territories is \$200,000 and for states is \$1,000,000.

Formula Funding - Eligibility

Awards will be made to the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands (herein referred to as “the states”). The states may re-grant/distribute funds to local election districts/offices at their discretion.

Awards to states that are delinquent on any EAC grant requirements across the HAVA portfolio will be prohibited from spending until the state has resolved the outstanding compliance requirements.

Matching Requirement

Per HAVA Section 104(d) cash match must be deposited in the state election fund. In-kind match must be tracked in the same manner as cash contributions should be reported under the Recipient Share on the annual EAC Federal Financial Report.

State and local funds used for match must be different from funds used to meet Maintenance of Effort or state match associated with HAVA 251 Requirement Payments.

Match expenses related to the award must occur after the award start date.

American Samoa, Guam, the U.S. Virgin Islands, and the Northern Mariana Islands are exempt from the match requirement.

Allowable Uses of the Funds

Election Security grants are “for activities to improve the administration of elections for Federal office, including to enhance election technology and make election security improvements, as authorized under sections 101, 103, 104 of HAVA.”

Consistent with provisions in HAVA Section 101, states have discretion upon expenditures within the general categories. The EAC requires a budget projecting the use of the funds, however, states can request a budget amendment to add categories not originally anticipated and/or a move of 10% or more between categories.

Please see our [Frequently Asked Questions](#) and [Grants Guidance](#) sections on the EAC website for more guidance on the use of funds. You can also reach out to grants@eac.gov if additional clarification is needed.
