Purpose of the 2022 EAVS Glossary

This glossary contains more than 130 terms and phrases used in the 2022 Election Administration and Voting Survey (EAVS) and Policy Survey. The primary audience for this glossary is the state and local election officials who complete these surveys. The purpose of this glossary is to assist survey respondents in understanding the survey questions and providing data that are accurate and comprehensive, as well as to establish data consistency across states and jurisdictions.

This glossary is not intended to be a comprehensive overview of all election terminology or all potential uses of the terms contained in this glossary. See the EAC's [Glossary of Election Terminology](#) for a more thorough guide to election terms.

Within this glossary, question numbers that start with Q denote questions in the 2022 Policy Survey, and questions that start with A–F denote questions in the 2022 EAVS.
