U.S. ELECTION ASSISTANCE COMMISSION

2014 EAVS Data File Codebook

Introduction

The 2014 Election Administration and Voting Survey data are available in three data formats – Microsoft Excel, SPSS, and .DBF. The Microsoft Excel and SPSS formats provide the data for each of the six sections of the questionnaire in a separate file. Thus, there is an SPSS file for Section A, another file for Section B, and so on. Due to constraints of the number of variables that a single DBF file contain, the EAVS data are provided in 10 physical files.

This codebook presents the variable name, a brief description of the variable, and the variable type (text or numeric) for all variables in the data. For most numeric variables, we present the minimum and maximum reported values as well as the frequency and percent of missing values and blank responses. Missing values include “Data Not Available”. In all data formats (i.e., Microsoft Excel, SPSS, and .DBF), a value of -888888 indicates that a jurisdiction reported “Not Applicable” and a value of -999999 indicates that a jurisdiction reported “Data Not Available.” Variable names in the .DBF format of a few variables are abbreviated due to variable name limits of the file format.

Additional information about the 2014 Election Administration and Voting Survey and a copy of *The 2014 Election Administration and Voting Survey Comprehensive Report* are available at www.eac.gov.

Jurisdiction Jurisdiction (county or county-equivalent) within the State
Type: Text

QA1a Enter the total number of persons in your jurisdiction who were registered and eligible to vote in the November 2014 general election. Include all persons eligible to vote in the election including special categories of voters with extended deadlines (such as returning military). Do not include any persons under the age of 18 who may be registered under a “pre-registration” program.

Type: Numeric

	Value	Label	Frequency	Percent
Minimum	0			
Maximum	4,870,720			
	-999999	Data Not Available	53	0.65%
	Blank	No Response Provided	22	0.27%
