

U.S. ELECTION ASSISTANCE COMMISSION

2012 Election Administration & Voting Survey

The ongoing process of improving America's election systems relies in part on having accurate data about the way Americans cast their ballots. In 2002, Congress chartered the U.S. Election Assistance Commission (EAC) to collect information on the state of American elections and make it widely available to policy makers, advocates, scholars, journalists and the general public. Since 2004, the Commission has sponsored a biennial survey as its primary tool for fulfilling that mission. We are pleased to present the 2012 Election Administration and Voting Survey, and we ask for your help in making it the most complete and accurate survey in its history.

The questions below ask for information about ballots cast; voter registration; overseas and military voting; Election Day activities; voting technology; and other important issues. The section concerning the Uniformed and Overseas Citizens Voting Act (UOCAVA) serves as the EAC's standardized format for state reporting of UOCAVA voting information as required by 42 U.S.C. §1973ff-1. States that complete and timely submit this section to the EAC will fulfill their UOCAVA reporting requirement under 42 U.S.C. §1973ff-1(c). Additionally, EAC is mandated by the National Voter Registration Act (NVRA) to collection information from states concerning the impact of that statute on the administration of Federal elections. With this information EAC is required to make a report to Congress and provide recommendations for the improvement of Federal and State procedures, forms, and other NVRA matters. States that timely respond to all questions in this survey concerning voter registration related matters will meet their NVRA reporting requirements under 42 U.S.C. § 1973gg-7 and EAC regulations.

The EAC recognizes the burden that asking for this data places on state and local election officials, and we have worked to minimize that burden as much as possible.

In advance, we thank you for your cooperation and look forward to answering any questions you might have.

Instructions for Completing the 2012 Election Administration & Voting Survey

1. This survey collects information on election administration issues in local election offices (typically counties or townships) that are responsible for the administration of the November 2012 general election. As such, all data should be reported at the level of the local jurisdiction. However, the State or Territorial level election office may fill out any or all of the information on behalf of the local election offices under its jurisdiction.
2. Do not leave items blank - always provide an answer to the question asked using the “Data not available” or “Other” categories discussed below, if needed.
3. Use the “Data not available” box if the question asks for details that are not required by your state law or the question asks for information that is not currently collected.
4. You may find it helpful to read an entire section before answering any of the questions in that section.
5. Please attempt to record data according to the categories as they are defined in the question. If your jurisdiction uses a different data classification scheme (for instance, collects data in such a way that combines two or more categories listed in a question), you can use the space provided for “Other” to provide numbers and details on these categories. Use as many “Other” categories as you need to adequately report the relevant statistics for your jurisdiction. If you enter information into the “Other” field, please use the comments field to provide an explanation for the answer.

In the example below, the jurisdiction does not collect separate statistics on the number of duplicate and rejected registration forms, but instead has only one number that represents the total number of registration forms that are either duplicated/or rejected.

EXAMPLE:

A5. In order to evaluate the workflow of your office over the last election cycle, enter the total number of registration forms your jurisdiction received from all sources during the period from the close of registration for the November 2010 general election until the close of registration for the November 2012 general election. Include here any Election Day or Same Day registrations, if applicable. Also include any special categories of voters who may have extended deadlines, such as returning military personnel, if applicable.

A5a. Total Data not available

Next, divide the total number of registration application forms received (as entered in A5a) into the following categories.
The amounts should sum to the total provided in A4a.

UNIFORMED & OVERSEAS CITIZENS ABSENTEE VOTING ACT (UOCAVA)
